---

## SKILLS

C# .NET / CSS3 / HTML5 / GraphQL / JavaScript / MongoDB / ReactJS / *and finally my greatest skill, for the many not listed here, is that I can & will gladly sit down, pick up a book, and **learn** it.*

## WORK EXPERIENCE

**Georgia Farm Bureau**, Macon, GA

October 2018 to present

*DS Programmer Analyst I*

- Redesigned company website decreasing page load time by 1+ second(s) by refactoring legacy controller code.
- Designed a new intranet site as a responsive spa using Material design guidelines that support the best practices of UI design to improve the UX. Future-proofed and improved the DX by using a popular mature front-end framework that newer devs are more likely to have experienced.
- Increased each internal web page accessibility score from a B or C to an A+ by following the recommended guidelines and industry best practices.

**microNovations LLC**, Remote

July 2015 to October 2018

*IT Tech Support / Web designer (freelance)*

- Designed and maintained micronovations.com the public website.
- Installed and set-up new computer/server hardware and software tailored to each client's unique organizational needs.
- Decreased the cost of the company website by 53% per quarter by redesigning and deploying the website to be statically hosted.

**Software Engineering Senior Project**, Milledgeville GA

January to May 2014

*Software Engineer*

- Designed and developed MedSCAN2014 a Bar Code Medication Administration (BCMA) simulation software for the Georgia College Nursing department.
- Interfaced with clients from planning to production to build software that served their specific needs and expectations; demonstrating expertise in software development best practices.

## EDUCATION

**Georgia College, Milledgeville, GA**, Aug 2014

Bachelor of Science, Computer Science - GPA 3.8

## ACHIEVEMENTS

*Study Abroad Exchange Program*

**Kansai Gaidai University (関西外国語大学), in Osaka, Japan**, Fall 2012

Asian Studies; Intensive Japanese Language program - GPA 4.0
